

Condom Competition

Goals

- To encourage youth to practice putting on a condom.
- To correct common mistakes (not pinching the tip, not being able to roll it down, etc.).

Senior 1-4 Education Curriculum Connections

This activity contributes to the following Student Specific Learning Outcomes:

Physical Education

- *K.5.S2.A.2 Demonstrate knowledge of healthy lifestyle practices that contribute to disease/illness prevention.*

Guidance Education GLOs under Personal/Social Component.

Have Ready

- Condoms and 2 or more woodies

Note to Facilitators

- This exercise normalizes condoms and that using them properly takes practice.
- This is a great activity for smaller groups, where each youth has an opportunity to practice if they feel comfortable doing so.
- Show them a quick condom demo first to highlight the steps and then let them practice. (See the condom demonstration.)

Instructions

- Normalize all penis sizes, shapes, with or without foreskin, by explaining that the demonstration tool is not what an actual penis should look like.
- You might say, **“Real penises come in all shapes, sizes, and colours. Some are circumcised, some are not, and *none* are supposed to be this hard.”**
- Get comfortable putting on a condom, and be able to show others this skill.

- Ask for two volunteers and explain they will “compete” with each other to see who can put a condom on properly. Whoever does it correctly in the least amount of time “wins.”
- Hand out woodies and condoms to the youth. They can put the condoms on, two participants at a time, while their peers talk them through it, if necessary.

Debrief

- Congratulate all the youth for participating as it can be hard to practice putting on a condom (alone or in front of others!).
- Debrief with youth by asking how it felt to put a condom on while under pressure.
- Discuss different strategies to make using condoms easier like: practising, either on themselves (if they have a penis), or a banana, sex toy, bingo dabber, etc. becoming comfortable with their body, making sure they are ready, having extra condoms with them (in case they make a mistake) and if they are with a partner, making sure that consent has been given.
